Hurssian House Rules

3.5 Edition D&D ~ 02/06/15 ~ v2.8

1.1 : Attribute Point Generation

Basic attributes (ie before racial modifiers) can be generated in one of the following ways :

1. 3d6 Straight. This option requires the rolling of 3d6 for each attribute in the following order : Strength, Dexterity, Constitution, Intelligence, Wisdom and Charisma. The player must take what comes. The character gets an additional "Background Option" to aid survival.
2. 4d6, drop the lowest. This option requires the character to roll 4d6, dropping the lowest dice. After generating six numbers they are assigned in any order. If the player is unhappy with any of the numbers he may raise one attribute one point by dropping another by two. All attributes must be within the range 3–18.
3. Assign Points. The player rolls 4d6 and adds 63. These points are then assigned over the six attributes as the player sees fit. No attribute can be above 18 or below 3.
4. Array Allocation. The player allocates 17, 16, 15, 11, 10, 8 to the 6 attributes as they see fit.

1.2 : Background Option

Any player writing a background history for their character is entitled to one background option. This option allows the character to survive an otherwise fatal situation. It is only redeemable once and once it is used that is it. If the means of death allows for no margin of error then something supernatural has intervened and the character is saved by the whim of the gods. The background doesn't have to be lengthy, but must show effort.

- Spell Point Modifiers : Arcane (Dwarf), Divine (Human)
- Favoured Class : Berserker

New 3rd Ed Details : Half-Elf/Orc

The half-elf/orc is the result of a very unpleasant union. Most children of such a union do not survive beyond a few months of age and are certainly never welcomed into elven society (the mother is always elven). The only ones that do are those whose mothers would chose banishment and family shame above the death of their babies. They have to take refuge in human lands and neither mother nor child would ever be welcome into the Sylvan woods again.

- Attributes : +2 Strength, -2 Intelligence, -2 Charisma
- Darkvision : 60’
- Base Speed : 30’
- Bonuses : +1 Listen, Search & Spot
- Blood : Counts as both Elven & Orc
- Spell Point Modifiers : Arcane (Half-Elf), Divine (Half-Orc)
- Favoured Class : Any

Hurssian House Rules

3.5 Edition D&D ~ 02/06/15 ~ v2.8

Clarified 3rd Ed Details : Elves

There are three types of elves in Hurssia. The most common are the high elves as described in the PHB and MM. These are the elves that make up the majority of the elven inhabitants of the Larrowmor and Allath Atoll. The second kind are the subterranean fallen elves, known as the drow (as per the MM). The third group are the true elves. These are celestial elves who predominantly inhabit Allaveer's plane, although some choose to live on the prime material. Drow and true elves do not inter-breed with humans and thus all half-elves are of the high-elf type (as per the phb/mm).

True Elves are as follows :

- +2 Dexterity, +4 Wisdom, +2 Charisma, -2 Constitution
- Observant : Low-Light Vision, +2 Spot, +2 Search, +2 Listen, Notice Secret Doors (as per high elf)
- Skilled : +15 Sense Motive, +10 Knowledge (Religion), +10 Perform, +10 Craft
- Immune to Magic *Sleep*
- +4 Save vs. Enchantment Spells & Powers
- Spell Resistance : 15 + Character Class Level(s)
- Immortal : Immune to Disease, Poison and Aging Effects Beyond Adulthood (reached at the age of 200)
- Plane Shift : True elves can shift between any Prime Material and Allaveer's Mystical Forest at will. This power takes a full round to complete, any interruption disrupts the power. The elf can only take himself and whatever he is carrying (including another creature(s)).
- Racial Level Adjustment : +4
- Physical Description : As per high elves, except the base height for males and females is 4'11" – True Elves are much taller than normal ones.
- Spell Point Modifiers : Arcane (Half-Dragon), Divine (Half-Demon)
- Favoured Class : Druid

White Elves are as follows :

- White Elves come from the Forest of the Winter Kings in the far west of Faerlanse. They are extremely rare in Hurssia, with none being recorded to date. They are from a very cold region and Hurssia's warmer climate does not suit them.
- White Elves use the same details as High Elves, with the following modifications :
- Favoured Class : Ranger
- +2 Resistance to Cold
- Spell Point Modifiers : Arcane (Hobbit), Divine (Elf)
- Spell Resistance : 10 + Level

Half-Elves (White) are as follows :

- Half-White Elves are extremely rare except in the border lands near the Forest of the Winter Kings..
- They use the same details as ordinary half-elves except :
- Favoured Class : Fighter
- Spell Point Modifiers : Arcane (Hobbit), Divine (Half-Elf)
- Spell Resistance : 5 + Level

Clarified 3rd Ed Details : Hobbits

Hurssian Hobbits resemble D&D halflings only in that their basic size and dexterity grant them the same basic powers. In all other aspects their outlook, personalities and description should resemble that of Tolkein's Hobbits *in the original books* (ie as Tolkein intended). They are a peaceful, non-nomadic, race who like agriculture, good food, good ale and pipe smoke. Statistic wise they only differ from the PHB in that their favoured classes are Expert and Commoner, not Rogue.

Hurssian House Rules

3.5 Edition D&D ~ 02/06/15 ~ v2.8

New 3rd Ed Details : Sundered Dwarves

- Attributes : -2 Charisma, +2 Constitution, +2 Strength
- Darkvision : 30'
- +2 Racial Save vs Poisons, Spells & Spell Like effects.
- Claustrophobic : A sundered dwarf must roll a successful Willpower saving throw (DC:15) in order to overcome his fear of the underground before he can enter dungeons, caves, and tombs. If the check fails, he may not enter. Once underground he must make a saving throw each day. If he fails, he will want to leave the underground by the most direct route. Underground Penalty : If the character fails a Willpower check and is underground he has a -2 Penalty to attack rolls. If the Claustrophobia Willpower roll failed then everyday the character is underground the penalty increases by -1. The character can attempt to overcome this every day with another Willpower check (DC as above) except he has a penalty equal to his current attack penalty.
- Giants : +4 Dodge versus giants.
- Physical Description : As per mountain dwarves, except appearance tends to be less well kept.
- Spell Point Modifiers : Arcane (Dwarf), Divine (Dwarf)
- Favoured Class : Fighter

New 3rd Ed Details : Brownie

The creature resembles a very small elf, shorter than a halfling and very slim, with brown hair. It wears brightly colored garments and it carries a belt full of artisan's tools. Brownies are benign and exceedingly nimble creatures that may be related very distantly to halflings. Peaceful and friendly, brownies live in pastoral regions, foraging and gleaning their food. A brownie stands no taller than 2 feet and weighs about 6 pounds. Their garments are usually made of wool or linen and dyed bright colors and decorated with elaborate embroidery or trimmed with silver or gold studs and buttons.

- Attributes : -6 Strength, +10 Dexterity, +2 Constitution, +2 Intelligence, +2 Wisdom, +2 Charisma
- Tiny Size : A brownie has a +2 bonus to Armor class and attack rolls and a +8 bonus on Hide checks. A brownie uses smaller weapons than humans use, and his lifting and carrying limits are half of those of a Medium character.
- Speed : A brownie's base land speed is 30 feet.
- Vision : Darkvision out to 30 feet & Low-Light Vision
- Calm Animal : As a free action, a brownie can calm an animal. The power is similar to a calm animals spell, except that it works on a single animal within 30 feet. An animal that has been affected or has made a successful saving throw against this power cannot be affected again for one day. The caster level for this power is 7 + the brownie's character level. The save DC against this power is 14 + the brownie's Charisma modifier. This is a supernatural ability.
- Spell-Like Abilities : A brownie can use the any of the following, each once a day: confusion, dancing lights, daylight, dimension door, protection from evil, ventriloquism. Saving throws are 10 + spell level + the brownie's Charisma modifier. The brownie's caster level is 7 + the brownie's character level.
- Evasion (Ex) : If a brownie is exposed to any effect that normally allows it to attempt a Reflex saving throw for half damage, the brownie takes no damage with a successful saving throw. If the brownie gains a class level that gives it the evasion class feature, the brownie gains improved evasion instead.
- Hide in Plain Sight (Ex) : In areas of dim light, tall grass, or heavy undergrowth a brownie can use the Hide skill even while being observed and without having anything to actually hide behind. This ability does not stack with the hide in plain sight class feature.
- Uncanny Dodge (Ex) : As the rogue ability. If the brownie gains a class level that gives it the uncanny dodge class feature, the brownie gains improved uncanny dodge instead.
- Wild Empathy (Ex) : As the druid ability. If the brownie gains levels in a class that has the wild empathy class feature, the brownie's bonus on wild empathy checks is 7 + the relevant class level + the brownie's Charisma modifier.
- Skills : +2 racial bonus on Craft checks.
- Spell Point Modifiers : Arcane (Elf), Divine (Half-Dragon)
- Favoured Class : Expert.
- Level Adjustment : +4.

1.5 : Class Options

The SL column indicates the class modifier to the characters Social Level. Multiclass characters use the highest bonus, plus any penalty. Hence a multiclass Expert/Rogue/Wizard would have an adjustment of +2 (Wiz, ignore the +1 for expert) plus -1 (Rogue), making a total adjustment of +1.

The Attr column is the attribute(s) which are required to determine how long it takes to train into this class (See Level Advancement). Where multiple attributes are listed, use the unrounded average.

Alignment : Any Chaotic

Hit Die : d10

Class Skills : As Barbarian

Armour & Weapon Proficiency : Martial Weapons. Light, Medium & Heavy Armour and Shields.

Beserk : A beserker must spend a full round action working up into a frenzy. At the end of the round the character must make a Willpower Save (DC: 12). If the save is successful the character goes beserk. If the save fails the character can continue trying, and succeeds automatically after 10 full rounds.

When the character beserks his strength increases by 2 points. He also gets +2 hit points a level. The characters armour class increases by +1 per level. This bonus is counted as natural armour. The beserker also gains a +2 saving throw bonus against charms.

The drawbacks of beserking are : the character cannot retreat from combat unless his opponent is slain or cannot be persuaded. A beserker cannot hang back in combat. If the beserker retreats or hangs back he finishes beserking. As soon as the beserk rage ends all benefits are lost (including the extra hit points). When the beserk rage ends the character must make another Will save (as above). Failure indicates the characters strength is reduced by 5 points. The character can end his rage at any point.

Shapechange : As a standard action the character can change into either a wolf or a bear. The beserkers hits, base attack and saves remain the same. However, the character gets the strength, dexterity, movement, armour class and damage of the creature. The beserker can understand the language of the animal he has changed into. The transformation lasts as long as the character wishes. Any worn or carried equipment is absorbed, but becomes non-functional. The attribute changes are :

Creature	Str	Dex	Move	AC	Attacks	Special
Wolf	13	15	50'	14	Bite 1d6+1	Low-Light Vsn, Scent
Bear, Brown	27	13	40'	15	2* Claws 1d8+8; Bite 2d8+4	Low-Light Vsn, Scent

Shape Journey (Hamfarir) : The beserker can send his spirit out into the world as an animal. To do this the character must put himself into a deep trance. 10 rounds after entering the trance the characters spirit animal appears upto 100 yards from his current position. The spirit animal can only be seen by *True Seeing* or second sight. This power can be used once per day and lasts for 1min/level. The character can end the trance whenever he wishes, but is unaware of his surroundings whilst in the

Hurssian House Rules

3.5 Edition D&D ~ 02/06/15 ~ v2.8

trance. Any damage taken by the spirit during the journey is inflicted on the beserker when the trance ends. The beserker's body is still vulnerable to ordinary attacks and damage, including a *Coup de Grace*.

The spirit of the beserker has the *Incorporeal Creature* subtype (MM p310). The spirit can communicate with humans but not animals. The spirit's movement and attacks depend on the type of animal :

Creature	Attack	AC	Move	Ethereal Attacks
Bear	BaB + Dx	10 + Cha (Min +1)	40'	2* Claws 1d8+Dx; Bite 2d8+½Dx
Bull	BaB + Dx	10 + Cha (Min +1)	40'	Butt 1d8+Dx
Falcon	BaB + Dx	10 + Cha (Min +1)	10', Fly 60'	2* Claws 1+Dx; Bite 1+½Dx
Raven, Hufe	BaB + Dx	10 + Cha (Min +1)	10', Fly 50'	2* Claws 1d3+Dx
Wolf	BaB + Dx	10 + Cha (Min +1)	50'	Bite 1d6+Dx

Ending the journey is a Will save (DC: 20). If the save fails the character's strength and wisdom are temporarily reduced by half. Strength must be recovered fully before wisdom can start to recover.

Cleric

Clerics must abide by their priesthoods as per 2nd Edition. They must meet the minimum requirements and must bare arms in the manner prescribed. They gain access to the Domains for the purposes of spell casting but their special abilities are listed below by level. They do not have the domain Granted Powers unless by chance. Clerics who have weapons listed that are not covered by the Simple Weapons proficiency gain the Martial feat for these weapons for free. All other details are as per the PHB. Clerics add Perform (Oratory) (Cha) or Perform (Singing) (Cha) to their class list.

Issiad, God Of The Sun : Issiad is the god of the sun and the father of the gods. It is he who created the world and all that exists. Issiad appears as a tall, muscular blond man wearing a toga. Issiad also deals with light. Issiad is the father patron of Insignious, who often does his bidding.

Skae, God Of The Four Winds : Skae appears as a strong barbarian figure, wearing a robe of feathers. Skae is a gentle giant and whilst easy to anger is also easy to calm down. Skae looks on all flying creatures as his children. Skae can often appear to act before thinking, or make snap decisions.

Orath, God Of The Earth : Orath doesn't actually have a physical form, at least not one anybody has seen. When communicating with his followers a mouth will appear in the wall, floor or other object, which talks in a slow monotone. Orath is a very sombre god and believes everything has its rightful order and place.

Being - SL 4; Align Lg; Sphere Earth / Stone; Symbol A Mountain; Plane Elemental plane of earth.

Priests - Min. Stat. Str 15 / Wis 9; Align any; Wpn Martial; Arm any metal; Domains Earth, Protection, Strength & War; Spl 1) Dig²; 1) Priests of Orath use a d10 for hit points; 5) Earth Meld³; 10) Earth Form; TU Nil.

Mistray, Goddess Of Agriculture : Mistray appears as a rather plump woman, usually carrying some form of wholesome food. She has a strong tendency to mother her followers, and occasionally lends a hand in trade. Mistray pesters any of her priests who don't make sure there is enough food for her faithful flock.

Being - SL 3; Align Ng; Sphere Agriculture, Craft & Trade; Symbol Hoe & Scythe; Plane The Plentiful Fields.

Priests - Min. Stat. Con 9 / Wis 9; Align Any non-evil; Wpn Any "tool"; Arm Any leather; Domains Animal, Earth, Plant, Sun & Water; Spl 1) Identify edible plants and animals with 100% accuracy; 9) Produce a perfect harvest (once per year); TU Turn.

Griss, God Of Luck : Griss appears as the happy wanderer. Griss does not have a care in the world and doesn't seem to worry about anything, except a game of chance. Griss likes his followers to be good flirts and good sports. This is a popular religion with bards, as is Tarrak.

Being - SL 1; Align Cn; Sphere Luck, Chance & Romance; Symbol Dice; Plane Cloud 9.

Priests - Min. Stat. Chr 12; Align Any chaotic; Wpn Martial; Arm None; Domains Luck & 2 of the players choosing; Spl 1) Re-roll any dice three times and take the best result (once per real hour); TU Nil.

Forms : Clerics with access to the forms, ie Earth Form, can change their form into the substance of their deity. This lasts for 1 hour per level or until the cleric returns to their normal form. This is a standard acton. No equipment is transformed except the priests holy symbol.

Druids

Druids remain mostly unchanged from the standard 3.5 rules. Their heirarchy is now based on the 2nd Edition rules, although this is dependant on social level and not class level. See the *p.druids.doc* file for details of this.

Druids add *Knowledge (Religion)*, *Perform (Oratory)* and *Perform (Singing)* to their class skill list.

Shaping a rune is the same as per the 2nd Ed rules, taking 15 + 1d20 minutes. Upon completion the character must make a Craft (Rune Carving) roll, DC: 15. The craft skill is based on the characters Wisdom attribute, not Intelligence as per other craft skills. Where a resistance roll is required, the target is the Runecaster's Craft roll.

At 1st Level :

- The character gets all the abilities and modifiers listed above for both classes.
- The character must choose his 'primary' class and takes the hit points and skill points from this accordingly. The maximum number of skill ranks is as per 1st level.
- Armour and weapon proficiency is as per both classes. Feats and racial abilities are as per a standard 1st level character.
- If the character class confers either the Cantrip or Orison feat then the character has this feat. In addition a cleric gets domain based spells as per 1st level. He does not gain access to the main spell lists or any special abilities. Druids gain their full spell list but no special abilities. Wizards and specialist wizards know 2d3 levels worth of spells and have a spell book as per 1st level.

At 2nd Level :

- Roll for the hit points from the characters secondary class.
- Increase the base attack, saves and special abilities of both classes so they match the 1st level bonuses in both classes.
- Buy skill ranks for the characters secondary class using the subsequent levels calculation.
- Calculate magic points as if the character were 1st level in each class. Wizards do not automatically gain any extra spells.

Prerequisites: Character must be a spell caster with at least 1 base magic point.

Benefit: This feat increase the characters magic points by one point per caster level, upto a maximum of +5. This benefit only applies to one type of magic. A multiclass spell caster would not add this to both his divine and arcane point totals, or his wizardly or bardic point totals.

Special: You may take this feat multiple times. Its can effects stack.

Source: Ihourn

Your exposure to the thousand forking paths of the city has taught you things you ordinarily would never have uncovered.

Prerequisites: Character must be a native of a capitol city (Nyr'Danr, Dun'Lenr or Traiger).

Benefit: Choose a skill you do not have as a class skill. You gain a +2 bonus on all checks with that skill, and that skill is always considered a class skill for you.

3.5 Edition D&D ~ 02/06/15 ~ v2.8

One-Hander Style (Feat, General) :-

Source: 2nd Edition Fighter Styles.

One Spell Wonder (Feat, General) :-

The character has managed, through some quirk of the gods, to learn an arcane spell of up to 5th level.

Prerequisites: Total non-spellcaster (ie Fighter, Warrior, Rogue, Commoner, Variant Ranger etc.). The feat cannot be taken by anyone who has any sort of spell ability, including racial spell ability. This feat is incompatible with the Cantrip or Orisons feats. In addition to the feat slot, the spell chosen costs the character Spell Level × Minimum Caster Level × 500xp. Thus the xp costs are : 1st) 500xp; 2nd) 3,000xp; 3rd) 7,500xp; 4th) 14,000xp; 5th) 22,500xp.

Benefit: Once learnt the character can use one arcane spell. As he has no magic points the spell deals a number of subdual points of damage equal to the spell level, plus any metamagic feat costs. The spell requires components, unless the character has also taken the Eschew Components feat.

Special: This feat can only be taken once. Once taken a character cannot multi-class into a class or prestige class which would grant spells.

Source: New

Summon Demonic Familiar (Feat, General) :-

This feat allows spellcasters to acquire a new familiar from a nonstandard list, but only when they could normally acquire a new familiar.

Prerequisites: Ability to acquire a new familiar, compatible alignment, 9th Level Arcane Caster.

Benefit: When choosing a familiar, the creatures listed below are also available to the spellcaster. The spellcaster must choose a familiar with an equal alignment. Demonic familiars are chosen from the lesser demon subcategory. Demons of Griss may not be chosen. Improved familiars otherwise use the rules for regular familiars, with two exceptions: If the creature's type is something other than animal, its type does not change; and improved familiars do not gain the ability to speak with other creatures of their kind (although many of them already have the ability to communicate).

Source: Orgal the Wizard, Scenario 10, Campaign 1. This was originally a 5th level spell.

1.10 : Level Advancement

When a character wishes to increase in level in the same class most things are automatic. However, if the character wishes to start a new skill which requires training then he will have to find a teacher. He will also have to find a teacher if he wants to go to a new class. Finally if a wizard wants a new spell he must have access to it or someone willing to teach him.

Learning a new ("trained") skill	:	(23 – Attrib) in Days (minimum 5)
Changing Class	:	(23 – Attrib) in Months (minimum 3)
Learning a new spell (wizards / bards)	:	4 Hours + 10 mins per level of the spell followed by Spellcraft (DC : 15 + Spell Level) to learn.

Training normally costs 5sa per day.

1.11 : Experience Points

Characters will earn 20% of the values for combat awards listed on page 36 of the DMG. Characters advance at their normal rate.

Newly created characters joining a group start with 66% of the group average, but this cannot be more than 80% of the total of the lowest active member of the group.

┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌

2.1 : Critical Hits & Fumbles

Critical hits are played out as per the standard rules with the following exception : when a character capitalises on a threat, it is another threat they roll again and so on. For each additional roll, add the dice plus modifiers to the damage. Thus a warrior using a longsword (1d8+1 damage) who rolls two 20's in a row, followed by a capitalisation, would roll 3d8+3 for his damage. Should the final roll miss, the previous roll is taken as the capitalisation. Thus in the above example, if two 20's followed by a miss were to be rolled, then the damage would be 2d8+2.

If a character fires a missile weapon into melee and misses their target then roll a random number to see if they hit another member of the combat. There is no need to re-roll the attack roll. Once another opponent is selected, check their armour class. If this should miss, re-roll for another target. If all targets miss, the missile has gone wild. Precise shot negates this.

Critical fumbles. These are the reverse of critical hits. If the character rolls a natural 1 he has done something catastrophic. This can range from simply dropping a weapon, to hitting himself or a friendly target. When a 1 is rolled, roll a d6 to determine the result on the following table :-

- 1) Drop Weapon - requires one round to recover
- 2) Hurl weapon across the battle field, room or somewhere else - requires 3d6 rounds to recover
- 3) Drop weapon or strike it on nearest inanimate object - weapon is broken beyond use
- 4) Hit self with weapon for normal damage - may continue fighting provided enough hits
- 5) Hit nearest friend within range, if none hit self - see above
- 6) As 5, except attack does maximum inflictable damage

┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌

2.2 : Reactions

The table below outlines the reactions each race has for the others. The penalty is applied to charisma based skill rolls when dealing with another character. To determine the modifier check the number of the race against their *Reaction to* the PC's race. For example, when a PC elf is dealing with a human weaponsmith he has a -3 penalty to his reaction roll.

Race	Reaction to ...					
	Dwarf	Elf	Gnome	Half-Elf	Hobbit	Human
Dwarf	0	-4	0	-3	-1	-1
Elf	-4	0	-1	-4	-1	-2

3.5 Edition D&D ~ 02/06/15 ~ v2.8

2.3 : Social Level

This is an indicator of how far up the social scale a character has progressed and how different members of society will react to him or her. Certain positions have a set social level. If a character gains such a position they automatically take that social level, which may either raise or lower their current level. Later this level may again be adjusted, by gaining rank or by losing favour. Organisations and religions have a similar system to this, but they are rated from 1 to 10, with 10 being the highest possible level, they can also be adjusted by the overall status of the organisation. A guide for the social level is :

SL	Nobles	Knights	Priests	Druids	Commoners
16	Emperor	-	-	-	-
15	King	-	-	Grand Druid	-
14	Archduke	-	Archbishop	Great Druid	-
13	Duke, Prince	-	Bishop	Archdruid	-
12	Count	-	Bishop	Archdruid	-
11	Lord	Knight-Equites / Provost Marshall	Abbot or Provost	Druid	-
10	-	Knight	Abbot	Druid	Guildmasters, Noted Scholars, Magistrates, Colonel
7-9	-	Squire	Prior	Initiate	Captain, Wealthy Merchants, Senior Artisans
4-6	-	Squire	Friar or Brother	Initiate	Sergeant, Merchants, Guildsmen, Artisans
1-3	-	-	Friar or Brother	Initiate	Soldier, Poor Merchants, Labourers, Commoners
0	-	-	-	-	Slaves, Outlaws, Prisoners of the Crown

Noble Offspring : The son of an Emperor or King is a Prince. The eldest son and heir of an Archduke or Duke is a Count. All other sons are Lords. The children of an Archbishop, Bishop, Grand/Great/Arch Druid, Baron or Count are Lords. The children of a Lord do not have titles. If a Lord dies without ascending to another noble title, their children do not inherit the title of Lord.

Knight-Equites : The Knight-Equites is a senior knight. Each order of knights also has a Knight Commander, who is the senior Knight-Equites in charge of the order. The exception is the Knights of Issiad, whose commander is known as the Provost-Marshall.

Friar or Brother : A brother is a priest or monk who lives within a closed order of an abbey or priory. A friar is a priest or monk who takes his ministry out into 'the parish'.

Provost : A Provost is an abbot appointed to the High Temple of a religion. There is normally one Provost for each geographical area. Kursaval, Ukrall, Turse and The Shire count as one area.

Starting Characters : A characters starting social level is equal to their level, divided by three, rounded down, but never below one or above nine unless the situation warrents it. Aristocrats may have levels over 10 (but not over 12). Rogues calculate their social level by dividing by four. Note this may take their social level to zero. See the class and racial options above for more modifiers.

3.5 Edition D&D ~ 02/06/15 ~ v2.8

3.1 : Normal Equipment & Coinage

Characters may buy most of the equipment listed in the players handbook, provided that it is available and they can afford it. Some equipment may not be available in certain areas, for instance, the local blacksmith is not likely to have a suit of Field Plate to fit the character, and is also unlikely to have the skills required to modify or build a suit. Most armourers work for the nobility or the king or ruler, thus making it difficult to purchase some of the more elaborate pieces of armour and weaponry.

Provided the equipment is available, the prices listed in the players handbook can be directly converted to Hurssian money as follows :

Hurssian Coin	D&D Coin & Value (2 nd Ed)	D&D Coin & Value (3.5)
1 Iron Tik	1 Copper Piece	1 Copper Piece
1 Bronze Agol	1 Silver Piece	1 Silver Piece
1 Silver Arun	1 Gold Piece	1 Gold Piece
1 Gold Rilk	1 Platinum Piece	5 Gold Pieces
1 Dulitch	10 Platinum Piece	5 Platinum Pieces

However, players must note the following. Firstly, if the item is rare, much sought after or generally difficult to come by, the price may be adjusted up. Conversely prices may be adjusted the other way if they are available in large quantities. Secondly, the use of the Dulitch is illegal in some areas, and punishments vary, from a removal of the coins and a fine or flogging, or banishment or exile in more extreme cases.

	Iron Tik	Bronze Agol	Silver Arun	Gold Rilk	Wgt
Iron Tik (cp)	1	1/10	1/100	1/500	.001
Bronze Agol (sp)	10	1	1/10	1/50	.001
Silver Arun (gp)	100	10	1	1/5	.005
Gold Rilk (pp)	500	50	5	1	.01
Dulitch ⁸ (10pp)	5000	500	50	10	1.0

3.2 : Adjusted Equipment

The Following items have been adjusted from the PHB :

Item	Cost	Notes
Alchemists Fire	40sa	--
Greatsword	100sa	--
Half-Plate Armour	1,200sa	--
Spell Component Pouch	<i>var</i>	This can come in a range of sizes. It holds 10 castings of all mundane ⁹ spells per lb of weight. It costs 2.5sa/lb, thus a standard 2lb pouch costs 5sa. A 4lb pouch holding 40 castings would cost 10sa.

┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌ ┌

⁸ This is a rare coin made of a rounded dragon scale with an inset diamond. It is outlawed in several regions.

⁹ By Mundane, this does not include spells with a specific gp cost, focus or divine focus.

3.5 : Magic Items

Given that the only people with the power to create magic items are the gods and wizards or specialists, magic items are *very* rare. Given the rarity of high level wizards, and the often unwillingness of gods to give anyone but their loyalist of followers and item, it is unlikely that hordes of magical treasure can be found. To reflect this the cost of creating a magic item is much higher. The base cost of an item is doubled whilst the XP required to create an item is now $2/25$. A wizard may also require some peculiar service of the buyer, but only if the item is very powerful or special. Note, some items may only be given by the gods.
